

CENTRAL AMERICA'S UNION

PURPOSE AND SCOPE OF THE NEW AGREEMENT.

The Preservation of Peace and the Assurance of Stable Government the Prime Objects Sought by the Union...

The Sun printed a despatch last week from San Francisco giving the general provisions of a compact just entered into by three of the republics of Central America...

Further particulars of this latest movement for Central American union were obtained by a Sun reporter yesterday from Señor José D. Gómez, the Nicaraguan statesman...

The confederated arrangement by which Nicaragua, Salvador, and Honduras have just committed themselves, and which, it is hoped, Guatemala and Costa Rica will also accept...

The present steps toward union on the part of the three republics are of a preliminary character...

The treaty of Amalapa represents at present the only agreement of the Executive Committees of the three countries...

It is especially for the welfare of the Central American people that the three republics are so anxious to reach a final agreement...

Stability of the union, so far as the three signatory States are concerned, is secured by the conservative and guarded terms of the compact...

MRS. FLEMING MAY GO FREE

NO CASE AGAINST HER, ONE OFFICIAL SAYS.

A Surprising Statement in Which the Police Are Severely Criticized for Their Conduct of the Investigation—Also a New Theory Which Implicates a Man.

The coroner's inquest into the death of Mrs. Evelina M. Bliss will begin to-day. Yesterday there came a statement from the District Attorney's office to the effect that the case against Mrs. Fleming, who is accused of poisoning her mother, Mrs. Bliss, is extremely weak...

Before making the statement the official said: "It is not the object of the District Attorney's office to prosecute, but to prosecute upon evidence whose strength cannot be shaken."

When President Flammar of the Board of City Magistrates was seen yesterday he was disposed to treat the matter lightly. "Has the case under consideration to appear before the Grand Jury?" he was asked.

"Oh, yes," he replied nonchalantly, "I have received one and will go down there after I have concluded my regular work in court to-morrow morning. I suppose they intend to ask me what evidence there is in the case of a charge of grand larceny."

AFTER CITY MAGISTRATES.

Grand Jury May Get Home Impenetrably to Be Investigated.

The September Grand Jury has of its own accord taken up a matter which is rather unusual in this city. It is a subject that involves the competency of the present Board of City Magistrates, and exactly what the powers of the Grand Jury in the matter are is not yet definitely known.

O'BRIEN'S SCORE STRONG.

HELPED TO ELECT HIM; NOW THEY DESPISE HIM.

The Whole Reform Administration Jumped On by the Speakers at the Executive Committee Meeting Last Night—The Party Adopts a New Set of Principles.

If it keeps on, Mayor Strong won't have any organization left at all to support him. Last night James O'Brien, of the Anti-Tammany Democracy Organization, as it is called, went back on him, and while they didn't pass resolutions denouncing him, like the Garos, they made it warm for him in their speeches and ridiculed his foreign appointments.

The Anti-Tammany Democracy, for a declaration of principles to govern us in the approaching campaign, was held last night at the City Hall. The following propositions were adopted:

First—A just and equitable system of taxation, so far as it applies to the mechanical and laboring classes.

Second—The maintenance of the civil service law, so far as it applies to the mechanical and laboring classes.

Third—A law requiring that all persons holding public office in this city should be residents of the city for a period of not less than one year.

Fourth—A law providing for the election by the people of Police Judges and Magistrates, subject to the approval of the Board of Police Commissioners.

Fifth—A law providing for the election by the people of Police Judges and Magistrates, subject to the approval of the Board of Police Commissioners.

Sixth—A law providing for the election by the people of Police Judges and Magistrates, subject to the approval of the Board of Police Commissioners.

WAKEMAN WON'T BE PROSECUTED.

Mr. Lauterbach Decides to Let the Proposed Label Charge Drop.

WILBUR F. Wakeman, the Secretary of the Protective Tariff League, has escaped prosecution in this city for the alleged forgery of a letter to the Hon. Edward Lauterbach, Chairman of the Republican County Committee, who was determined to do the prosecuting, read Mr. Wakeman's letter to the editor of The Sun yesterday.

In this letter Mr. Wakeman, while not denying a single word of the interview which The Sun had published, carried the charge that he had not and did not accuse Mr. Lauterbach with forgery in connection with the call for the special meeting of the Republican County Committee.

Mr. Lauterbach, who had long talked with him, and who had concluded that the article denied a successful prosecution, very indignantly refused to let the matter drop.

Mr. Wakeman's letter to the editor of The Sun yesterday, while not denying a single word of the interview which The Sun had published, carried the charge that he had not and did not accuse Mr. Lauterbach with forgery in connection with the call for the special meeting of the Republican County Committee.

WILL IT BE TWO STRAIGHT?

DEFENDER AND VALKYRIE READY FOR THEIR SECOND STRUGGLE.

Today's Race to Be Over the Triangular Course—Crowds Watch the Famous Rivals Tussle Up The Fair Meadows in Close Company Down the Bay—Some Little Trouble with the Herreshoff Boat's Canvas—Confidence of the Challenger's People—They Think the Watson Cutter Will Hold Her Own in a Show.

The crews of Defender and Valkyrie worked hard yesterday putting the finishing touches on the rival yachts and incidentally their sails, together with their standing and running rigging, were thoroughly overhauled for the second or triangular race to-day.

Capt. Cranfield and Sycamore of the Valkyrie seem to have recovered by her defeat on Saturday, and Capt. Cranfield apparently voiced the sentiments of the English cutter's crew when he said: "Well, we can take a beating, but you must remember that one race does not settle the series. The Valkyrie is still afloat, and we hope for the best. You see, the Valkyrie has not yet been tested in heavy weather, and I think she will prove herself a good boat in a blow."

"I have not given up all hope of winning yet by any means. On Saturday, if the wind had held true, we would have turned the outer mark and as the result of the race might have been different. It is possible that the Defender is not a run, which it would have been if the wind had not hauled."

Capt. Sycamore, when asked if he thought they would do better in to-day's triangular race, said: "Yes, I think we will, if we only get a steady breeze. Come around to-morrow night and I will tell you more about it."

On the Defender all hands were so busy that neither Capt. Hoff nor Terry had much time to talk, but both seemed confident of winning to-day's race.

From the Defender the Sun reporter rowed over to the Zecker, a small steam yacht which Mr. Iselin has chartered for the cup race. On board were Mr. and Mrs. C. Oliver Iselin, Nat Herreshoff, Newbury D. Thorne, E. D. Morgan, and Woodbury Kane, while Mr. and Mrs. W. Butler Duncan, Jr., who had been paying a brief visit to the city, were also on board.

When asked if he thought the Defender would do better in to-day's triangular race, said: "Yes, I think we will, if we only get a steady breeze. Come around to-morrow night and I will tell you more about it."
